As you know, Russian aggression on Ukraine's eastern border has been of increasing concern to the US ever since the Russian invasion of Ukraine and annexation of Crimea in 2014. America has responded by recognizing the sovereignty and territorial integrity of Ukraine, committing to sanctioning Russia until Russia implements its commitments under the Minsk agreements and providing assistance to the Ukrainian military, including small arms and Javelin anti-tank weapons.

Russian aggression continues to be a major problem for both Ukrainian security and their economy. But the need for free market improvement in governance, reduction of corruption, and a defense against external political influence are all critical to solidifying total independence for Ukraine.

I am attaching a significant video produced by Hon. Marcy Kaptur (D,OH).

We currently represent concerned citizens of Ukraine to assist former Ukrainian Prime Minister Yulia Tymoshenko to meet with leaders in Washington, DC.

Mrs. Tymoshenko is ahead in all the current polls and there is a very good chance that she could become the next President of Ukraine. It would behoove the interests of Ukrainian/US relations if you will meet with her when she comes.
